

THE OTHER SIDE OF THE DREAM

Take him to the light
Gone now from our sight
If I must give him up to you
You must give my love its due

Unravel the seam
To the other side of the dream
Take me there beyond the air
To the other side of the dream

This barrier skin
I sorrow within
Give me one curtain call
Show me the way through the wall

I'm rising like steam
To the other side of the dream
Left a stray I'll find my way
To the other side of the dream
